HARVESTING PUEBLO?

Recently we met a couple compassionate for more ministry in nursing homes in **Pueblo CO**.

There are at least 6 homes , plus several assisted living homes. When I called the home the couple mentioned, both the administrator and activity director were ecstatic!!

The administrator said they had written letters to every church in Pueblo and sadly not one responded. Where is the passion for doing kingdom work? Are we all too busy with our agenda that we forget those forgotten by society?

God knows everyone is not called to care centers, but those who are called are not listening. I was given a statistic yesterday that maybe 2% of us Christians

Metro Denver = FT's Harvest Field

are going into care centers, but the resident numbers in homes are growing every day. FT is a resource to anyone feeling the call.

Going into the holidays, do you or someone you know need a way to release God's love through your own life here in the Denver area?
